

## City & Guilds Level 3 CPD Module in Utility Arboriculture Basic Electrical Knowledge (0041-06) Record of Assessment

To be completed by the registering City & Guilds centre:

**Candidate Name**

**Candidate Email**

**Candidate Tel**

**Candidate DOB**

**Candidate ENR**

**Centre Number**

**Assessment Date**

**Assessor BP No**

**Assessor Name**

**Centre Name**

**Pre-req's Met**

**Yes**

**N/A**

Completed by the City & Guilds approved Assessor:

**ID Check complete**

**Yes**

**ID type**

**Assessor signature:**

**Full name:**

**Date:**

**Assessment duration:**

**Candidate signature:**

**Full name:**

**Date:**

**Satisfied:**

**Yes**

**No**

Record of Assessment - **This is not a certificate**

City & Guilds Level 3 CPD Module in Utility Arboriculture Basic Electrical Knowledge 0041-06

## Skills evaluation

| Activity number and description  |   | Score                         |   |                               |   |   |
|--|---|-------------------------------|---|-------------------------------|---|---|
|  |   | 1                             | 2 | 3                             | 4 | 5 |
| 1  | Explain the risk assessment process   | □                             | □ | □                             |   |   |
| 2  | State personal protective equipment requirements  | □                             | □ | □                             |   |   |
| 3  | State the factors to consider when carrying out ground-based operations   | □                             | □ | □                             |   |   |
| 4  | State the definition of the vicinity zone   | □                             | □ | □                             |   |   |
| 5  | State the vicinity zone distances for the range of voltages   | □                             | □ | □                             |   |   |
| 6  | State the definition of the live zone   | □                             | □ | □                             |   |   |
| 7  | State the live zone distances for the range of voltages   | □                             | □ | □                             | □ | □ |
| 8  | Explain how to categorise trees   | □                             | □ | □                             |   |   |
| 9  | State proximity zone 1 and 2 distances, and who they apply to   | □                             | □ | □                             |   |   |
| 10   | State the minimum ground clearances for overhead lines  | □                             | □ | □                             |   |   |
| 11   | Explain permit to work/permit for work and its details  | □                             | □ | □                             |   |   |
| 12   | State safety points related to applying earths  | □                             | □ | □                             | □ | □ |
| 13   | Identify the emergency equipment required on site   | □                             | □ | □                             |   |   |
| 14   | State the emergency action required following contact with the electrical network                               | □                             | □ | □                             |   |   |
| 15   | State the action to take when rescuing a person from a low voltage line   | □                             | □ | □                             |   |   |
| 16   | State the action to take when rescuing a person from a high voltage line  | □                             | □ | □                             |   |   |
| 17   | State the information given to the network operator in an emergency   | □                             | □ | □                             | □ | □ |
| 18   | Identify a range of EHV, HV and LV overhead line components and explain the risks when working adjacent to each | □                             | □ | □                             | □ | □ |
| <b>Result:</b>   |   |                               |   |                               |   |   |
| To achieve a Pass result, candidates must score a minimum of 3 in <b>each</b> element of the skills evaluation. A score of 2 or below in <b>any</b> element will automatically result in a Fail. |   | Fail <input type="checkbox"/> |   | Pass <input type="checkbox"/> |   |   |

Assessment Terminated:

In the interest of safety

At the candidate's request

Assessor feedback:

### **Candidate Information**

If you are not satisfied with the assessment outcome, please contact your assessment centre for information on their appeals process.

Certification will be delivered directly to your assessment centre. If you do not receive your certificate within 20 days, please contact your assessment centre in the first instance.

If City & Guilds NPTC are not notified of a missing certificate within 30 days, a charge will be applied for a replacement to be issued.

Record of Assessment - **This is not a certificate**
