Level 2 Award in the Safe use of Tractor Mounted Mowers Independent Assessment	5	Yes	38	600/4670/3	0014-06

Qualification Aim	Qualification levels and definition	Progression routes
These qualifications aim to provide the learner with the knowledge, skills and understanding to safely use a mower. Learners are encouraged to take their assessment with different cutting mechanisms to broaden their certification e.g. cylinder, rotary, flail, reciprocating knife and greens machine with interchangeable units.	These qualifications are available at Level 2. This is the standard at which industry recognises learners as having achieved competence to carry out the role.	City & Guilds qualifications provide learners with the skills, knowledge and confidence to progress within their chosen career as they show learners have developed their skills to a high standard recognised by industry.

	Key Features	Key Benefits
Structure	There are two compulsory units to each qualification: Operate a Mower and Use and Maintain the Mower.	The qualifications have been specifically designed to meet the diverse needs of learners and employers, with various types of mower and cutting mechanism.
Assessment	The three types of mower qualification are available with Independent and Integrated Assessment; in both cases the assessment is practical with one to one questioning.	Assessment can be carried out at a time to suit the candidate and employer. A one to one approach ensures that the assessment process is rigorous and a full evaluation of the candidates competence can be determined.
Support	Resources include Qualification Guidance and support materials for the qualifications. These are produced by City & Guilds in collaboration with industry experts.	Easy to read Qualification Guidance providing detailed information for each unit for learners to download.

Reasons to choose City & Guilds	
Most valued brand recognition	Our qualifications are trusted and valued by both experts and industry across the amenity horticulture industry.
Practical Approach	City & Guilds is renowned for its offer in providing a flexible method of assessment to suit learner and centre needs.
Expertise	These qualifications are based on the National Occupational Standards (NOS) and developed into qualifications in conjunction with industry experts.
